East Cocalico Township Newsletter

FALL & WINTER 2026

The new Hill Road/Route 272 intersection is officially complete and open to traffic!

The completion of this long-awaited project marks an important improvement for one of the Township's increasingly traveled areas. The newly realigned and fully signalized intersection was designed to improve safety, visibility, and traffic flow while providing safer and more efficient turning movements.

With improved sightlines and traffic control, the new intersection is better equipped to accommodate current traffic demands while supporting continued growth in the area.

We are excited to see this project completed and appreciate everyone's patience and cooperation throughout construction. These improvements will help keep the area accessible, functional, and safe for motorists, pedestrians, and cyclists for years to come.

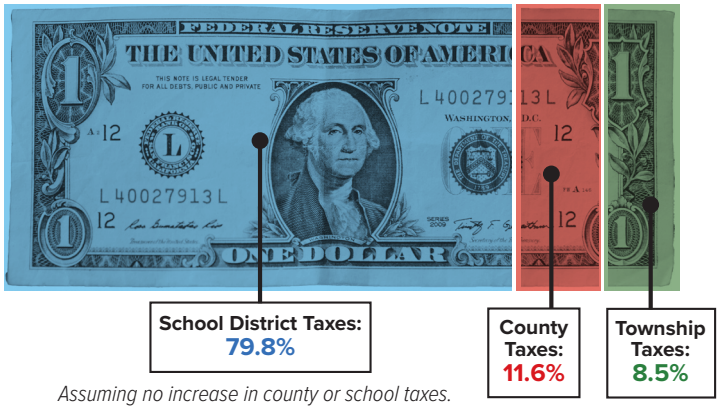

Board of Supervisors Chairman Lorenzo Bonura does the honors of the official ribbon cutting!

Financial Outlook

Township staff have worked diligently to develop a 2026 budget that addresses current economic challenges while continuing to deliver essential public services for residents of East Cocalico Township, Lancaster County. The Township's total General Fund budget is $7,890,000.

Public safety remains a cornerstone of the Township's budget, with police and fire protection services accounting for $4,062,921—approximately 51% of the total operating budget. In addition to these services, East Cocalico Township provides roadway maintenance, street lighting, yard waste and recycling collection, code enforcement, and park maintenance, all delivered as cost-effectively as possible.

Of every tax dollar paid, our township receives **only** 8.5%, while 11.6% goes to Lancaster County, and, the majority, 79.8% is allocated to the school district. Township staff remain committed to delivering high-quality services while maintaining fiscal responsibility.

Assuming no increase in county or school taxes.

Halloween Schedule

This year's Trick-or-Treat hours will be from 6:00 p.m. to 8:00 p.m. on Saturday, October 31.

In the event of inclement weather, Trick-or-Treat updates will be posted on Facebook—please keep an eye out for an announcement regarding rescheduling.

Holiday Tree Drop-Off

East Cocalico Township will once again offer a Holiday Tree Drop-Off for residents at the Township Building, 100 Hill Road, from December 26 through January 31, during regular Woody Waste hours. Before dropping off your tree, please remove all stands, ornaments, lights, plastic bags, tinsel, and other decorations.

Police Department

Fall & Winter Community Update

As we transition into the fall and winter months, the East Cocalico Township Police Department would like to thank our residents, businesses, and community partners for their continued support throughout the year.

The changing seasons bring new challenges and opportunities to focus on safety. We encourage everyone to take a few simple precautions:

ROADWAY SAFETY

- Slow down and allow additional stopping distance during rain, snow, and icy conditions.
- Never drive impaired or distracted.
- Be especially alert for pedestrians, bicyclists, and children.
- Remove snow and ice from your vehicle before driving.

HOME & VEHICLE SAFETY

- Lock your vehicle and remove valuables from view.
- Keep exterior lights on during the darker fall and winter evenings.
- Check doors and windows before leaving your home.
- Be cautious of scams, especially during the holiday season.

SCHOOL & PEDESTRIAN SAFETY

Please remain alert in school zones and residential areas. Obey school bus laws, crossing guards, and posted speed limits. A few extra seconds of patience can make a significant difference in keeping our children safe.

HOLIDAY SEASON

As the holidays approach, we encourage residents to look out for one another. If you see something suspicious, don't hesitate to contact the police department. Your awareness and willingness to report concerns are an important part of keeping our community safe.

Message from the Board of Supervisors

This year, the Board of Supervisors engaged Jerry Ozog, a nationally recognized fire services consultant, to conduct an in-depth review of fire services throughout the township. After carefully examining operations, performance, call volume, and other factors, Mr. Ozog provided the Board with several recommendations to help strengthen and support fire services in our community.

One recommendation was the development of a fair funding formula so that all fire companies serving the township on a first-due basis receive financial support. The formula considers three key factors: call volume, property values, and population.

The Board of Supervisors would like to publicly thank Jerry Ozog, as well as the representatives from our local fire departments, who dedicated significant time and effort toward developing a more cohesive and equitable approach to fire services in our township. The Board recognizes that this is just one step toward preparing for the future. There are many challenges facing the fire service across Pennsylvania, and we know that the needs of our fire companies will continue to evolve.

Supporting Our Local Fire Companies

East Cocalico Township is proud to support the dedicated men and women of the **Cocalico Area Fire Department** and **Stevens Fire Company**, who provide essential emergency services to our residents, businesses, and visitors every day.

As our community continues to grow, so do the demands placed on our local fire companies. The need for personnel, training, apparatus, equipment, and emergency response resources continues to increase. In addition to the Township's support, our fire companies rely on contributions from residents and local businesses to help ensure they have the resources necessary to continue providing a high level of service to our community.

Currently, approximately 11% of residents and businesses contribute through voluntary donations to our local fire companies. While we are grateful to everyone who has contributed, this means that a relatively small portion of our community is helping provide this additional financial support for a service that benefits everyone. Increasing participation in voluntary contributions can make a meaningful difference in helping our fire companies meet their growing needs.

To put the value of voluntary contributions into perspective, a 0.50 mill fire tax would equal approximately $50 per year for every $100,000 of assessed property value. This example is provided solely for comparison and does not represent a proposed tax or current Township initiative.

Every contribution, regardless of size, helps support operations, training, equipment, and emergency response needs. Residents and businesses who are interested in supporting our local fire companies may contribute directly:

Cocalico Area Fire Department

Mail Donations To:
12 W. Church St., Stevens, PA 17578
Contact: jgarner@cafd17.com

Stevens Fire Company

Mail Donations To:
91 Stevens Rd., Stevens, PA 17578
Contact: stevensfire73@gmail.com

The continued support of our community helps ensure our local firefighters have the resources they need to keep East Cocalico Township safe and effectively respond when called upon. **Thank you to our local firefighters and emergency responders for their dedication and continued service to our community!**

Is Your Septic System Due?

Remember: Every 3 Years!

If your property has an on-lot septic system, regular pumping is an important part of keeping it working properly and protecting our community. Under East Cocalico Township's On-Lot Sewage Management Program, all on-lot septic systems must be pumped at least once every three (3) years.

Regular septic maintenance is about more than simply meeting Township requirements. Having your system pumped on schedule can help:

- Prevent costly repairs and system failure
- Protect your property value
- Safeguard local streams and groundwater
- Keep your septic system operating smoothly

Continued on Page 5

Snowy Roads

When snow falls in East Cocalico Township, our Public Works team follows designated snow removal routes, prioritizing emergency routes and high-priority roads first. For safety and efficiency, cul-de-sacs and other secondary roads are not plowed until emergency and high-priority routes are passable.

Our crews work hard to keep Township roadways as safe and clear as possible, and residents can help! When the snow starts to fall, please remember to:

- **Remove vehicles from the roadway.** Parked vehicles can slow or prevent snow removal operations. Vehicles parked along designated emergency routes may be towed.
- **Keep snow out of the roadway.** Please do not shovel, blow, or push snow from driveways or sidewalks into the street. This creates a safety hazard for drivers and snowplow crews.
- **Plan for the plow.** If possible, wait until the roadway has been plowed before clearing the end of your driveway, sidewalk, or mailbox area. If you need to clear these areas sooner, please keep in mind that plows may push snow back into them as they clear the roadway.
- **Be prepared for winter driving.** Make sure your vehicle is ready for winter conditions and allow extra time when traveling. If conditions are unsafe, consider delaying your trip until roadways have been cleared.

WHICH ROADS DOES THE TOWNSHIP PLOW?

The Township does not plow State-owned roads, private roads, or roads that have not yet been dedicated to the Township.

A list of State-owned roads within East Cocalico Township is available at **ect.town**. Snow removal concerns on State-owned roadways should be directed to the Pennsylvania Department of Transportation at **(800) 349-7623**.

Thank you for your patience and cooperation as our Public Works team works to keep East Cocalico Township moving safely throughout the winter season!

EAST COCALICO WATER & SEWER TOWNSHIP AUTHORITY

102 Hill Road, Denver, PA 17517
Phone: (717) 336-1731
Email: water@ecocalicotwpauth.com
www.eastcocalicotownshipauthority.com

Keep your drains happy this holiday season (and year-round)!

With all the extra cooking, it's tempting to rinse pots and pans down the sink, but fats, oils and grease (FOG) can quickly harden, clog pipes, and lead to costly backups, not only in your home but throughout the sanitary sewer system. Let fats, oils and grease cool and dispose of them in the trash. A little care now keeps things flowing smoothly all year long!

Protect Your Pipes this Winter!

As temperatures drop, take a few simple steps to prevent your water pipes from freezing:

- Insulate any exposed water pipes.
- Drain and turn off outside faucets and disconnect hoses.
- Ensure heat can reach your pipes and water meter, especially in bathroom or kitchen cabinets and crawl spaces.

Please remember: Although ECTA owns the water meter, customers are responsible for protecting it. If your meter freezes, you will be billed for its replacement and installation.

Water Meter Replacement Project Update

We continue addressing premature battery failures in the Master Meter water meters. While the meters still record usage correctly, dead batteries prevent automatic transmission of the meter reading to ECTA. While we await a final decision on our grant application for a full systemwide upgrade to Neptune meters, ECTA staff are continuing to replace the Master Meter meters with new Neptune Meters as the batteries fail. We will notify you by mail if your meter needs to be replaced. For ongoing updates and additional details, please visit our website and click on the Projects-ECTA page.

Lead Service Line Inventory Update

Some customers received letters in 2024 and 2025 stating their water service line is classified as "Lead Status Unknown." These notices are required under the federal *Lead and Copper Rule Improvement*, which mandates all public water suppliers to verify the materials of every service line to support the nationwide removal of lead pipes. Thank you to those customers who submitted their service line material! ***To date, ECTA has not found any lead pipe in its system.***

A service line has two parts: ECTA-owned lateral (from the water main to the right-of-way) and customer-owned service line (from the right-of-way to the dwelling). Both parts must be physically inspected and confirmed non-lead before a property can be designated "Non-Lead." In most cases, properties still considered "Lead Status Unknown" are due to the ECTA lateral portion requiring physical inspection. We are in the planning stages of verifying all laterals ahead of the 2037 deadline. Unfortunately, the federal rule requires annual notification to customers until BOTH parts are confirmed "Non-Lead." If you receive a future notification regarding "Lead Status Unknown," there is no further action on your part. Additional information can be found on our website and going to the Lead & Copper Rule Revision page.

Winter Weather and Water Main Breaks: What You Need to Know

As winter approaches and temperatures begin to drop, the risk of water main breaks naturally increases. When they happen, ECTA Staff respond as quickly as possible to repair the break. Repairs can require equipment in the roadway, which may lead to lane closures. If you see our staff working, please slow down and drive carefully for everyone's safety. When a break significantly affects customers, we will send a voice and email emergency notification to the contact information we have on your account, so be sure we have your most up-to-date information! While it is rare, if a break results in a boil water advisory, we will notify you immediately with clear instructions. As winter settles in, thank you for your patience, caution and cooperation!

Source Water Protection – Agricultural Outreach

In 2025, ECTA completed a three-year agricultural outreach project funded by a grant from the National Fish & Wildlife Foundation (NFWF). Working with our agronomic consulting partners, Rosetree Consulting and TeamAg, nutrient management and engineering services were provided to nine local farmers covering over 600 acres in the watershed. The implemented improvements resulted in an estimated 16,000 pounds of nitrogen prevented from being land applied, which ultimately impacts the groundwater. ECTA applied for additional funding to NFWF in April 2026, in hopes to continue the success of the Agricultural Outreach Program. We are still awaiting the decision on our grant application. If you are or know a farmer in the watershed, please contact Mike Galley at the ECTA office for more information on how to participate in this project in the future.

Source Water Protection – Commercial Customer Outreach

In 2025 and 2026, ECTA sent out 'Land Use Surveys' to 167 Commercial and Industrial Customers. The information provided in the survey helps us understand commercial and industrial processes that could impact the groundwater, which is used for emergency planning to protect the system. Thank you to those customers who have submitted responses! Your efforts help protect our water resources!

Workplace Safety Committee

Did you know ECTA has a workplace safety committee that is certified by PA's Department of Labor & Industry? During our monthly meeting, our committee reviews hazards, concerns, and incidents reported by our members that are identified during routine facility safety inspections. By reviewing hazards and implementing controls as a team, we can prevent potential future injury both to our team and our customers. Maintaining our certification qualifies us for a 5% reduction on our workers' compensation insurance premium.

Scan the QR code to pay your water/sewer bill online or go to our website to get started! It's fast, easy and secure!

No fee for eChecks. All other payment methods incur a 2.75% fee or a $2.75 minimum, whichever is greater.

Is Your Septic System Due?

Continued from Page 3

PUMP IT.
Have your septic system pumped by a licensed septic hauler at least once every three years.

REPORT IT.
When your system is pumped, have your septic hauler complete the required Inspection/Pumping Report. The completed report should be submitted to the East Cocalico Township Office as soon as possible.

PROTECT IT.
Routine maintenance helps protect your property, our groundwater, local streams, and the environment. Taking care of your septic system today can help prevent much bigger—and more expensive—problems tomorrow.

Not Sure When Your System Was Last Pumped?
If you are unsure whether your property is due for pumping or have questions about the Township's On-Lot Sewage Management Program, contact the East Cocalico Township Office at **(717) 336-1720** or **twp@ect.town**. A small step today can prevent big problems tomorrow.

Subdivisions and Land Developments

PLANNING STAGE

- **Roechling Medical Lancaster Land Development** (A 56,600 SF addition to an existing medical manufacturing facility at Denver Road) – Awaiting receipt of revised plans and information to address conditions of plan approval.
- **Grande Construction Subdivision 195 Swartzville Road** (121-lot single-family detached home subdivision at Swartzville Road) – Awaiting receipt of revised plans for review. Held virtual meeting with traffic engineer. Possible resubmission to discuss road improvements at July PC meeting.
- **Wabash Landing Phase 3 Subdivision & Land Development** (A subdivision that includes 18 single-family detached homes, seven single-family detached-homes with conversion apartments, 22 semi-detached homes, and 14 attached homes, at Wabash Road and Stevens Road) – Awaiting applicant to complete final conditions of approval to record plan.
- **Autozone Land Development** – Received plan submission, which is currently under review.
- **WICU, Inc. 21 Industrial Way Land Development** (A land development that includes a 50,000 SF warehouse and office at Industrial Way) – Awaiting receipt of revised plans and information to address conditions of plan approval.
- **Crossings at Cocalico Land Development** (51 single family units, 18 duplex homes, 42 townhomes, 72 apartments, and 9.20 acres of open space with associated improvements) – Reviewed revised plans and provided comments to applicant. Conducted site visit of sidewalk route with residents and Manager; discussed with design engineer. Awaiting completion of conditions of approval, agreements, and revised plans for review.
- **Metro Development/C&B Land Development** (A land development that includes a 315,800 SF warehouse at Gehman School Road & Stone Hill Road) – Reviewed final plan revisions and issued update punch-list of conditions for approval. Awaiting receipt of agreements for action by the Board of Supervisors.
- **Wright Ebersole LLC Land Development Phase 2** – Reviewed agreements and awaiting final items for plan signature. Earthmoving commenced and ongoing. Conducting construction improvements inspections. Awaiting agreements and responses from the applicant. Anticipated completion date for project is July/August 2026.
- **Line Road Reserve Subdivision & Land Development (Zimmerman)** – Reviewed plan submission and issued review letter dated March 18, 2026. Received and reviewed revised plan submission. Issued review letter dated June 8, 2026, which was discussed at June PC meeting. Issued PC recommendation letter dated June 23, 2026, which will be considered at future BOS meeting.
- **LCSWMA Minor Subdivision** – Received plan submission and issued review letter dated April 29, 2026. Received revised plan and issued review letter dated June 4, 2026, which will be discussed at the June PC meeting. Issued PC recommendation letter dated June 23, 2026, which will be considered at July BOS meeting.
- **955 Stone Hill Road Land Development** – Received plan submission and issued review letter dated June 15, 2026. Applicant is working on revising plans and resubmitting for future PC meeting.
- **388 Stevens Road Minor Subdivision** – Received and reviewed plan submission. Issued review letter dated June 8, 2026. Applicant is working on revising plans and resubmitting for future PC meeting.

CONSTRUCTION STAGE

- **Village at East Cocalico** (A subdivision that includes five single-family detached dwellings and 118 townhomes at Muddy Creek Road) – Construction has commenced and currently conducting site inspections. Monitoring progress of the project as nescessary.
- **Weiler Walls Land Development** (A land development that includes a 62,555 SF building designed for use as a contractor's office, storage space and storage yard) – Construction has commenced and currently conducting site inspections. Monitoring progress of the project as necessary.
- **Wright Ebersole LLC Land Development (Purecycle) Phase 1** – Awaiting release request from the developer for work completed to date. Awaiting completion of sidewalk corrective improvements along Route 272.
- **Dutch Cousins Subdivision & Land Development** (A land development that includes a 15,000 SF multi-use building, a 2,400 SF pavilion, and various outdoor recreational facilities, at an existing campground at Hill Road.) – Conducted site improvements inspections of project. Monitoring progress of the project.
- **935 Stone Hill Road Land Development** – Developer indicated that they have completed improvements, however it has been discovered that buildings and utilities have been installed without permits. Enforcement is ongoing for this project.
- **We Care Communities Land Development** (A 17-unit expansion to an existing mobile home community at Wabash Road) – Monitoring progress of the project and conducting site inspections as needed.
- **Forino Properties Land Development** (A 6,100 SF office building, pole building, and a 146-unit mini-storage facility at North Reading Road and Jason Avenue) – Monitoring progress of the project and conducting site inspections as needed.
- **Hoover Trucking Land Development** – Awaiting receipt of as-built plans and completion of level spreaders.
- **251 N. Reamstown Road Subdivision** – Conducted final inspection of the property and contacted developer regarding potential financial security release.
- **Heatherwoods Development Phases III–V** – Project is currently in maintenance period.
- **Woodcrest Retreat Phase 3 Land Development** – Conducted site improvements inspections and monitoring progress of project.
- **Wabash Landing Phase 1 & 2** – Conducted sidewalk repair inspections. Project is currently in maintenance period.
- **HMW Properties, LLC Land Development** (A land development that includes an 11,800 SF building for use as a laboratory/office) – Conducted site improvements inspections and monitoring progress of the project.

Upcoming Library Events

"READ 'EM UP AND EAT 'EM UP" AUTUMN READING PROGRAM
September 1 – November 30
Pick up a reading log at the library, read 50 books throughout the fall, and return the completed log to receive a Certificate of Achievement redeemable for a free kids meal at Texas Roadhouse. For ages 12 and under.

BEHIND THE SIGNATURES
Thursday, September 24 • 5:00–6:00 p.m.
Go beyond the names in history books during Behind the Signatures. Discover the stories of America's founding fathers through their biographies and handwritten signatures while practicing the art of signature writing with fountain pens. This program is part of the America 250 series. For adults. Registration is required.

COLONIAL CANDLE MAKING AND THE EVOLUTION OF LIGHT
Thursday, October 1 • 5:00–6:00 p.m.
Step back in time during Colonial Candle Making and the Evolution of Light. Learn about the history and process of colonial candle making with candle artisan and educator Ginny Good, then try the craft firsthand by creating a colonial candle of your own. This program is part of the America 250 series. Registration is required. For adults.

ERIC MINTEL INVESTIGATES THE PARANORMAL
Thursday, October 15 • 5:30–6:30 p.m.
Join paranormal investigator and television host Eric Mintel for an intriguing journey into the unexplained at the Adamstown Area Library. Through compelling photographs, audio recordings, eyewitness accounts, and video evidence, Eric will share fascinating stories from his investigations of haunted locations, UFO sightings, mysterious creatures, and other paranormal phenomena. Discover the techniques used by investigators, hear about remarkable encounters from across Pennsylvania and beyond, and participate in a lively audience Q&A session. Whether you're a skeptic, a believer, or simply curious about the unknown, this entertaining and thought-provoking presentation offers a unique look into the world of paranormal investigation. This program is for adults, and registration is required.

ELECTION DAY: LIBRARY REFERENDUM
Tuesday, November 3
Lancaster County voters will have the opportunity to vote on a ballot question that would establish a dedicated tax to provide stable, sufficient, and secure funding for public libraries across the county. If approved, the revenue generated could only be used to support public library services in Lancaster County. Polls are open throughout the day.

SKYWATCH
Thursdays, November 5, 12, and 19
Drop-in from 5:00–6:00 p.m.
Stop by to watch live views of celestial objects and astronomical events streamed through the library's new telescope. This drop-in program offers an opportunity to explore the night sky without leaving the library. Check the library website for weather updates and alternate rain dates. For all ages.

EXTRAGIVE • November 20 • All Day
Join Adamstown Area Library for the ExtraGive, Lancaster County's annual day of giving! During this 24-hour community-wide event, every donation helps support the library's programs, resources, and services while celebrating the organizations that make Lancaster County a stronger place to live, learn, and grow.

CHRISTMAS IN THE COLONIES
Thursday, December 10 • 5:00–6:30 p.m.
Experience the sights, tastes, and traditions of the holiday season in colonial America. Participants will explore how different colonies celebrated through historical foods, festive decorations, and engaging activities. This program is part of the America 250 series. For adults. Registration is required.

TEEN CANDY CANE HUNT • All December
Check out a young adult book with a paper candy cane inside and bring it to the circulation desk to receive a piece of candy. Limit one piece of candy per day, please. For teens and tweens.

ELF ON THE SHELF SCAVENGER HUNT
December 1 – 18
Elf on the Shelf is hiding in the library! Tell a librarian where you saw Cocoa the Elf and receive a raffle ticket to win a prize. Cocoa the Elf moves to a new hiding place each day, so stop in often to collect more raffle tickets. For kids of all ages.

Adamstown Area Library
educate • engage • empower

CHILDREN'S CHRISTMAS PARTY
Saturday, December 6
Drop In from 9:30–11:00 a.m.
Photo ops with Santa, Storytime by Mrs. Claus, holiday music by Phredd Ukulele One Man Band, gifts, raffle prizes, and cookies & milk. For kids of all ages.

The Season of Giving is Back!

East Cocalico Township is excited to partner with Real Life Community Services to bring back our Holiday Food Drive! We invite residents, businesses, and community organizations to join us in helping stock the shelves for local families in need this holiday season.

HOW TO DONATE

Donations of non-perishable food items may be dropped off at the East Cocalico Township Building, 100 Hill Road, Monday through Friday, from 8:00 a.m. to 4:30 p.m. **The final day to donate at the Township Building is Thursday, November 20**.

NEIGHBORHOOD FOOD PICK-UP DAYS

Can't make it to the Township Building? We're making it even easier to give! The Township will offer two neighborhood food pick-up days on **Thursday, November 5 and Thursday, November 12**.

Simply place your donation in a paper bag by your front door, and we'll pick it up. **Pick-ups must be scheduled at least 24 hours in advance of your selected collection day.** To schedule a pick-up, call the Township Building at **(717) 336-1720**.

All food collected will be donated to Real Life Community Services, where it will help provide support to local families throughout the holiday season.

REAL Life COMMUNITY SERVICES

Please Note: We cannot accept expired food, homemade items, or food packaged in glass containers.

Whether you donate one item or several bags, every contribution makes a difference. Thank you for helping us make this holiday season a little brighter for families in our community!

Reamstown Community Pool

Thank You for a Great 2026 Pool Season!

Another summer has come to a close at the Reamstown Community Pool, and what a season it was! This year's Night Swim events were especially memorable!

Our Space Night and Glow Party brought great crowds to the pool for evenings filled with swimming, music, themed fun, and lots of memories! A special thank-you goes to the local businesses and organizations that sponsored and supported our events, as well as our pool managers, lifeguards, staff, volunteers, and Township employees who worked throughout the season to keep the pool safe, welcoming, and fun. Most importantly, thank you to our community!

Whether you purchased a season pass, stopped by for a swim, attended a special event, or supported the pool in another way, we appreciate you being part of our 2026 season. We're already looking forward to 2027, with new themes, special events, and more summer fun ahead.

2026 Road Resurfacing and Stormwater Improvement Projects

Below are photos of the 2026 road resurfacing and stormwater improvement projects in the Meadowbrook neighborhood. Additional work is scheduled for September to complete improvements in Meadowbrook and on other streets in the Schwartzville area.
