Spring 2014
Volume 28, Issue 1

WEBSITE HAS A NEW LOOK

East Cocalico Township website has a new look (same address www.eastcocalicotownship.com) which was implemented on April 3, 2014. The website underwent a complete redesign. Please let us know of any suggestions you may have and please bear with us, as the site is still under construction.

DUMPSTER UPDATE

HOURS:
M-F: 8:00am- 4:30pm.
Sat: 8:00am-3:00pm.
Closed Sundays & Holidays

Placed behind the Township Building, 100 Hill Rd., Denver (near the Woody Waste Site) are two very large red dumpsters, you cannot miss them, one is for **paper** and the other for **cardboard**.

PAPER DUMPSTER: Previously this was only for “magazines”, BUT now it is for newspaper, phone books, magazines, office paper, and junk mail. Take advantage of recycling your paper today! **TAKE OUT ANY METAL** such as paper clips (the staples can stay in the magazines). For transporting, place your paper items in a plastic grocery bag and throw everything in the dumpster. **NO ROPE or STRING.**

CARDBOARD DUMPSTER: This is *only* for corrugated cardboard. You will need to break down the cardboard in order to fit it into the slots. Corrugated cardboard is a paper-based material consisting of a wavy piece, and one or two flat outer pieces; it is not for cardboard similar to cereal boxes.

A CLOSER LOOK AT CORRUGATED CARDBOARD.

SPECIAL POINTS OF INTEREST

- The 2014 Pool Rates are the same as last year's rates.
- Support your local Fire Companies and volunteer today!
- A HUGE THANK YOU to those who support the Fire Company Fund Drives.
- Recycle your paper today (newspapers, junk mail, magazines, phone books and office paper). Place in the dumpster located behind the municipal building. Read more on page 1.

	DISCOUNT RATE (June 16th and before)	RATE (June 17th and after)
FAMILY (same address)	\$180.00	\$185.00
STUDENT (6 yrs. to 18 yrs.)	\$70.00	\$75.00
ADULT (19 yrs. to 59 yrs.)	\$110.00	\$115.00
SENIOR (+60 yrs.)	\$70.00	\$75.00

ZONING OFFICER reminders

Spring is a great time for starting new and cleaning up the old; and as you do, please keep in mind:

Burning and open burning in burn barrels are not allowed in the Township.

Building/Zoning Permits are required for all construction projects as well as a fence, shed, or a change in use of a property. Permits are not required for sealing driveways, painting, wall-papering, new flooring, sidewalks, swings, and replacement of siding or roofs (unless there is a structural change). Applications can be downloaded from the Township website or picked up at the Township office.

Call 811 before you dig. If you plan on installing a fence, deck, digging for a mailbox post, patio, or any other excavation project, it is very important to know what is below. Either you or your excavator should call PA One Call at 811 or 1-800-242-1776 anytime day or night.

Swimming pools over 24" deep require a permit. Any pool that is over 36" deep, including the soft-sided pools, without a four-foot barrier require a fence or wall. Pools must be at least ten feet (10') from lot lines.

Dogs. It is unlawful to allow your pet to run at large. All pets must be either on a collar and leash or confined in a cage or run area, or under reasonable control within the confines of your own property. It is the duty of the pet owner to keep pets secure, under control, and quiet.

Grass and weeds in excess of six inches (6") in height shall be mowed on or before May 1, June 1, July 1, August 1, September 1, and October 1 of each calendar year. If found in violation, one notice will be sent. Thereafter, action will be taken by the District Justice for the violation without any further notices being mailed. (Ordinance 2001-08).

was something left behind? ?

What a great way to exercise, taking your dog for a walk. Your pet will enjoy it just as much as you do! But, remember, when taking your pet for a walk,

please be respectful by keeping your dog on a leash and cleaning up after it, by properly disposing of the waste at home. East Calico Twp. Ord. 2007-03 states fines can be imposed

up to \$600.00 for dog waste left behind.

ZONING OFFICE HOURS CHANGING

In order to accommodate requests from Township residents, effective May 6, 2014, the Zoning Officer will be in his office from noon until 7:00pm on Tuesday and Thursday. On Monday, Wednesday, and Friday the hours will be 8:00am until 4:30pm (no change). It is hoped this will help those residents and businesses who cannot contact the Zoning Officer during the normal Township business hours (8:00 a.m. until 4:30 p.m.).

Garage / Yard Sales are permitted in any zone by an owner and/or occupant up to four times a year. No garage/yard sale shall be conducted for more than three consecutive days. Such sales may offer for sale personal possessions; no import or stocking of inventory shall be permitted. Only one four square foot sign is permitted to advertise the garage/yard sale located upon the premises where the sale occurs. The signs must be removed promptly upon completion of the sale. In no case shall any aspect of the garage/yard sale be conducted in a street right-of-way. Garage sales held beyond the extent described herein represent a commercial business and require appropriate zoning authorization. Please call the Township if you have any questions. *No yard sale and/or other signs are permitted to be nailed, stapled, or taped to utility poles.*

Litter, please pick it up. No property shall be maintained in a state that creates litter, either on the property or upon any adjoining properties and/or roads. Litter is defined as discarded materials scattered about a site that are not normally associated with its use.

Have a great Spring and Summer! We made it through a rough winter and hopefully we will have a normal (whatever that is), productive, happy, and healthy spring and summer. If you have any questions on any of the above, please do not hesitate to call the Zoning Office at 336-1720.

CONSTRUCTION

Have you noticed the construction activity at 1835 North Reading Road (Rt. 272) and at 561 South Muddy Creek Road? The Township has issued a building permit for the construction of a Dollar General Store at 1835 North Reading Road and a permit for Pet Food Experts at 561 South Muddy Creek Road for a 200,000 sq. ft. pet food production and warehouse facility.

REDUCING RUNOFF

CLEAN WATER IS EVERY RESIDENT'S RESPONSIBILITY

The next time it rains or the snow starts melting in the spring, take a look outside, notice the water trickling over your lawn, down your driveway, and into the street.

To some, this may be a calming sight. However, for anyone who knows anything about runoff, this is an alarming event because as the water flows over land, it picks up debris, chemicals, dirt, and other pollutants and carries them to nearby streams, wetlands, lakes, and storm sewer systems. There, the runoff is discharged, untreated, into the water we all use for swimming, fishing, and drinking.

As a result, stormwater runoff is one of the greatest threats to the nation's water supplies.

Instead of being part of the problem, though, township residents can be part of the solution by practicing healthy household habits that can keep common pollutants, including pesticides, pet waste, grass clippings, and automotive fluids, off the ground and out of stormwater. The following are suggestions to help you get started:

VEHICLE AND GARAGE

Use a commercial car wash or wash your car on a lawn or other unpaved surface to minimize the amount of dirty, soapy water flowing into the storm drain and, eventually into the local water supply.

Check your car, boat, motorcycle, and other machinery and equipment for leaks and spills. Make repairs as soon as possible. Be sure to clean up any spilled fluids with an absorbent material, using kitty litter or sand, and remember to not rinse the spills into a nearby storm drain, but instead dispose of the absorbent material properly.

Recycle used oil and other automotive fluids at participating service stations. Do not dump these chemicals down the storm drain or dispose of them in your trash.

WHY IS THIS A PROBLEM?

Poorly managed stormwater runoff can cause a host of problems, including: **Flooding:** water runs off roofs, driveways, and lawns, large volumes can reach streams, causing them to rise quickly and flood. With more impervious surfaces flooding occurs more rapidly. **Pollution:** water running over roofs, driveways, roads, and lawns pick up pollutants, such as oil, fertilizers, pesticides, dirt/sediment, trash, and animal waste. The pollutants "hitch a ride" with the water and flow untreated into local streams. **Streambank Erosion:** when water flows into streams at unnaturally high volumes and speeds, the power of these flows can severely erode the banks. This erosion is another source of sediment pollution in streams.

LAWN AND GARDEN

Use pesticides and fertilizers sparingly. When use is necessary, please follow the guidelines for the recommended amounts. Also, avoid application if the forecast calls for rain; otherwise, the chemicals will just be washed away and into local streams.

Select native plants and grasses that are drought- and pest-resistant. Native plants require less water, fertilizer, and pesticides.

Sweep up yard debris, rather than hosing down areas, and compost or recycle yard waste when possible.

Don't overwater your lawn and only water during the cool times of the day. In addition, don't let the water run into the storm drain.

Cover piles of dirt and mulch that are being used for landscaping projects to prevent pollutants from blowing or washing off your yard and into local waterways. Also, vegetate bare spots in your yard to prevent soil erosion.

Poorly managed stormwater runoff can cause a host of problems, including flooding, pollution, and streambank erosion. As residents of the township, we can all be part of the solution of the stormwater runoff problem by practicing healthy household habits.

NEW STORMWATER RULES

Please note that the Township has been given a deadline of May 7, 2014 by DEP to adopt new stormwater regulations. The new regulations would cover many kinds of new earth disturbances. The Township's existing 1,000 sq. ft. cumulative exemption of proposed impervious surface on developed property will remain in the new ordinance. The exemption for agricultural buildings, however, would no longer be included, as suggested by the county model stormwater ordinance approved by DEP that this Township is to follow. On the other hand, the new code is also to include a new Small Projects option for proposals involving between 1,000 and 2,000 sq. ft. and in specified circumstances of new earth disturbance. This option gives the applicant a simplified template of directions and drawings for installing acceptable stormwater facilities while reducing the need for the applicant to hire a licensed professional, like a civil engineer. In some cases, an applicant could use the Small Projects option to add a shed, patio, deck, swimming pool, or addition to a house or driveway. All of these new rules are intended to help clean up our streams and the Chesapeake Bay as well as mitigate flooding and promote groundwater recharge.

WOODY WASTE SITE

ALLOWED

WHO? East Cocalico Twp. residents only. No commercial dumping.

WHAT? Limbs less than 1½" diameter, branches, bushes and stumps less than 12" diameter

WHERE? 100 Hill Rd, Denver, behind the municipal building.

WHEN? Mon.-Fri. 8am to 4:30pm. Sat. 8am to 3:00pm. Closed Sundays and Holidays.

NOT ALLOWED

WHO? NO commercial dumping; whether you live in the township or your business is in the township.

WHAT? NO grass, leaves, furniture, clay pots, appliances, bricks, treated and untreated wood, skids, stumps larger than 12-inches in diameter, large trees, or any other trash of this nature.

WHERE? If you need to dispose of an item listed above, please call (1) your trash hauler, (2) Lancaster County Solid Waste Management at 717-397-9968 or (3) Martin's Mulch, 973 N. State St., 717-733-1602.

WHEN? The site is open Monday through Saturday: 8:00 a.m. to 3:00 p.m. To avoid the mud, do not use the site during or after rainy days.

RECYCLING INFO. FOR TOWNSHIP RESIDENTS

Drop Off: (1) Compact Fluorescent Bulbs (CFL), the small "spiral" bulbs (no long tubes), (2) unwanted cell phones, their batteries, and chargers, (3) yard waste (*see "Woody Waste Site" above*), and (4) Christmas trees (*signs posted during the season*). Drop off these items at the Municipal Building's lobby area, 100 Hill Road, Denver, M-F, 8:00 a.m. to 4:15 p.m.

Pick Up: (1) Kraft Bags for leaves, (2) Recycle Bins, (3) Battery Bags for small batteries (*when the bag is full, place it out for your trash hauler*), and (4) Educational Pamphlets. These items can be picked up at the Municipal Building (lobby area), 100 Hill Road, Denver, M-F, 8:00 a.m. to 4:15 p.m.

CONTACT INFORMATION

(1) Your trash hauler; (2) Lancaster County Solid Waste Management Authority 717-397-9968 (www.lcswma.org); (3) Earth 911 (www.earth911.com), *type the name of the item to recycle, zip code, and click "search", the results display all nearby locations for recycling that particular item;* and (4) Martin's Mulch located in Ephrata 717-733-1602.

*Recycling Coordinator, Lisa A. Kashner
Assistant Recycling Coordinator, Alan R. Fry*

do you know??

With the availability of reliable, online search engines, many of us no longer need a phone book in our house. However, each year, more than 650,000 tons of phone books are delivered to households across the United States. A large percentage of these go unused. While a third of all phone books are recycled, 410,000 tons still find their way to landfills or incinerators, costing taxpayers about \$60 million each year in management costs. Read more at: http://www.productstewardship.us/?Phone_Books.

If you would like to STOP receiving phone books at your doorstep, please go to www.yellowpagesoptout.com. Deliver your old phone books to the "paper dumpster" located behind the Township at 100 Hill Road, Denver (see page 1 of this newsletter for more details).

FROM THE POLICE CHIEF

Nicer weather is coming and so are the yard sales and garage sales. Please be careful when approaching a yard sale and slow down. People are looking for a place to park, and crossing the street with their little ones.

Also, placing flyers for advertising a yard sale inside someone else mailbox is a federal crime, and it is against the Township rules to post signs along the roads and stapled to telephone poles. Please place a notice in the newspaper, your local grocery store, or on a website.

Thank you.

OIL & CHIP ROAD SURFACING

The township uses oil and chip surfacing because it costs about 13 times less than resurfacing with asphalt or concrete. Oil and chip is used on lower-traveled and lower speed roads. Oil and chip resurfacing is approved by PennDOT for these kinds of roadways. It typically takes about a week for the loose stones to become embedded in the road surface. Until then you may want to travel slower on that road. The oil and chip provides a protective wearing surface to prolong the road's service life. This process typically adds five to seven years to the life of a road and will provide a safe, skid-resistant surface. The contractor applies only the amount of 'chip' stone needed and guarantees a maximum 'whip-off' of two percent excess stone. The whole process has dramatically improved over the years with the better efficiency of techniques and equipment.

2014 ROAD PROJECTS

OVERLAY: Glenwood Drive (T670), overlay the intersection only, (2) Wabash Road (T669), (3) Park Street (T851)

OIL AND CHIP: South Reamstown Rd. (T700), Glennwood Dr. (T670), Napierville Rd. (T674), Frysville Rd. (T810), Landis Rd. (T878), Martin Rd. (T857), Bill Dr. (T708), Ray Dr. (T712), Robin Dr. (T713), Dubson Circle (T709).

SEWAGE ENFORCEMENT OFFICER

Since mandatory pumping began about seven years ago, residents with an on-lot septic system were assigned to one of three new geographical districts (district 1, 2 or 3). It became mandatory for each resident to pump within the their assigned district dates; with the only exception being a deferral by Dale L. High, the Township Sewage Enforcement Officer.

The Township keeps records of all the septic systems pumped, and as a courtesy to you, a reminder letter will be mailed each May to the residents who have not pumped. If you pumped and you still received a reminder letter, please ask your pumper/hauler to mail or fax the Township a copy of your pumping report (please do not send your copy or invoice to the Township, this is for your records).

A list of registered pumper/haulers and the district map can be found at: www.eastcocalicotownship.com or call the Township at 336-1720 for any questions.

*Dale L. High
Sewage Enforcement Officer
OLDS Management*

REAMSTOWN POOL is open on May 24th. See page 2 for information.

STREET LIGHT NOT WORKING? If so, write down the two numbers located on the pole, along with an approximate street location. Then call PP&L at 1-800-342-5775 or the Township Office at 336-1720.

DOG LICENSES ARE NOT sold at the Township Office. Call the Lancaster County Treasurer's Office (717-299-8222) or visit the website www.padoglicense.com where you can apply, pay and print your PA Dog License and your metal tag will be mailed to you within a few business days.

HOUSE NUMBER SIGNS CAN BE ORDERED THROUGH YOUR LOCAL FIRE COMPANY:

WATER METER REPLACEMENT PROJECT

The final phase of the Authority's water meter replacement project is now under way. In late 2013 the Authority began a project to replace all of the aging residential water meters in the Township with radio read meters as part of an overall upgrade of the water system. By the end of 2013 approximately 900 meters had been replaced. During this final phase an additional 1,400 water meters will be replaced. The project is expected to be complete by the end of September 2014. The Authority has contracted with Lenegan Plumbing & Heating to perform the installation work. There is no cost to residential property owners for the replacement meter or the installation. The new meter can usually be installed in less than 30 minutes. When your neighborhood is scheduled for meter replacement you will receive a letter directly from the East Cocalico Township Authority explaining the project in detail and providing information on how to contact Lenegan Plumbing & Heating to make your appointment. Please help us keep costs down by scheduling your appointment as soon as you are notified.

WATER STORAGE TANK REPAIR

In 2012 the Authority completed an inspection process of our four water storage tanks located throughout the Township. The inspections showed that the tanks were in good condition needing only minor repairs and repainting. From these reports the Authority developed a time schedule to make the necessary repairs. In 2012 our 500,000 gallon concrete tank near East Church Street in Reamstown was repaired and last year we rehabilitated our 200,000 gallon steel tank near Kramer Mill Road. This year we will schedule repairs on the 1,000,000 gallon steel tank located behind Renninger's Antique Market along Rt. 272. In general this project will consist of abrasive blasting and cleaning of the interior surface of the steel tank, cleaning the exterior surface and repainting both the interior and exterior surfaces. Minoan, Inc. from York, PA was awarded the contract for this project. Work is expected to take about 60 days and be finished no later than the end of August.

THANK YOU

With warmer weather having arrived we can finally put the cold, snowy winter of 2013 / 2014 behind us. Before we completely forget about our snow shovels, winter coats, and boots the Authority would like to take this opportunity to thank our customers who took the time to assist us by clearing the never ending snow and ice from the fire hydrants in their neighborhoods. Also a big thank you to both the Authority and Township public works men for the services they provided during some of the coldest weather ever experienced in Lancaster County. These dedicated public servants responded at all hours and in all types of weather conditions to insure that our customers' water and sanitary sewer utilities remained working and the Township's streets passable. Thanks to everyone for a job well done!

2013 ANNUAL DRINKING WATER QUALITY REPORT

Each year the East Cocalico Township Authority is required by the PA Department of Environmental Protection to provide our customers with the Annual Drinking Water Quality Report for the previous year. This report contains important information about the quality of the drinking water we supply to our customers. To view this report please type the following web address into your browser: <http://cms4.revize.com/revize/eastcocalicotownship/AUTHORITY/CCR2013.pdf> or visit our website.

If you do not have access to the internet or would prefer a paper copy of the report, please stop by the Authority office at 102 Hill Road or call us (717) 336-1731 to receive one.
